

MEHADI HASAN

SUMMARY

Technical proficiency with broad and in-depth background in engineering and mathematics disciplines including Machine Learning, Computational Intelligence, Neural Networks, Fuzzy Logic Systems, Genetic Algorithm, Data Mining, Distributed Systems, System Identification, Numerical simulation, Optimization, Rule-based Systems and Statistical Inference.

Research and Development experience in IT industry for last 5 years in Machine Learning, BI and Data Mining areas.

Supervised and managed IT projects and worked within a collaborative team environment, alongside engineers & scientists from diverse & highly specialized disciplines.

Extensive web-based, distributed, multiple platform independent software development experience on full SDLC (Analysis, Design, Development, Maintenance and Implementation) using OO methodologies.

Proficiency in a range of programming languages (C/C++/C#, java, PHP, Python, Reactjs, TypeScript).

Highly perceptive to changing technologies around and responsive to information sciences.

CONTACT ME

Address: B# A, H# 3, Gabtoli Link
Road Isdair, Fatallah
Narayanganj Dhaka 1400
Bangladesh

KEY INTERESTS

- ✓ Knowledge Discovery/Machine Learning/Computational Intelligence.
- ✓ High-end industrial Software Development using intelligent algorithms
- ✓ Web Application Architecture and Technologies
- ✓ Reading and adaptation on new cutting edge knowledge and technologies
- ✓ Intelligent, Immune and methodological quality Software Development.
- ✓ Cyber Security & Real-Time Implementations /R&D on Projects.
- ✓ Robotics With Proper Intelligent System & Real Time Implementation
- ✓ Cross Platform Architecture Compilation system for pretesting and vulnerability
- ✓ Testing
- ✓ Kernel Injection to exploits
- ✓ Bio-Technology & Genetics Engineering
- ✓ Rocket Science, Signal Decoding to analysis the data using RTL-SDR based Portable Station for Real Time Tracking of GEO and Better Weather Forecast

EXPERIENCE

Orimpo Inc. Ltd | Motejheel Dhaka Bangladesh

CEO & CHIEF CONSULTANT

2011-2016

This is a complicated position that was challenging to me at that time. However I had to look after the sections of Business Operations and analysis the feedback between customer and products. I was responsible for the profit/loss. Besides the most complicated part was to handle clients and lead teams to develop the products as clients need. Along with supporting client based product our strategy was to build new products according to modern needs. Basically idea based plan was under our plan of actions. LEDP a Govt project in Bangladesh was done under my supervision in between 2014 to 2016.

TRZ | GACHA ROAD GAZIPUR

CHIEF CONSULTANT AND ENGINEER

2017-2019

Well, I was hired to maximize their profit actually as Chief Consultant in IT sector at TRZ. As it was a garments industry, I surveyed their data and tried to find points that could improve to maximize their profit. Thus along with developing an ERP system for them from scratch I planned to automate schedule based power with RDS and connect production machine with our system and RFID technology inside Inventory system. Thus they got super efficiency and find their maximum profile after a period of time.

Others | Dhaka Bangladesh

Beside them I was Technical Consultant and Design Administrator as well as Data analyst in Alamin sweaters (2013), Friends Appeals (2018), Peregrine Air Line also.

I've done a full E-commerce based system including stock, buyers, shipments with bar code to despatch time (changeable per day), seals, commissions, local sellers etc was the main features of that project that was UK based popular site.

Operating Platform: Unix, Linux, Windows, Android, IOS

Architecture: windows, Linux, IOS client-server, n-tier, smart phone application development (android/IOS), GRID, SOA, Cloud.

Database: Oracle, SQL server, My SQL, Gupta, Postgresql

Platforms & Technologies: Visual Studio Code, Eclipse, DotNetNuke CMS, WCF, Telerik ORM, Delphi, Enterprise Miner, .Net, J2EE, Apache, Unity, Blender, jetbrains, UiPath, RED Node etc.

Business Intelligence Software: SAS Enterprise Miner, Clementine (SPSS), AlphaMiner, See5.0/C5.0, Enterprise 360 Intelligent Business Solutions.

Development Model: Scrum, Agile and Waterfall

PMT: Redmine

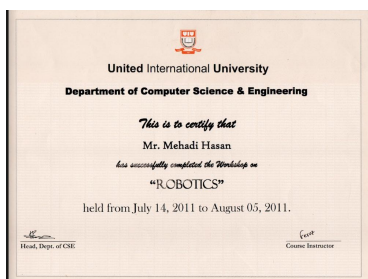

United International University | Chicago, IL

BACHELOR OF COMPUTER SCIENCE AND ENGINEERING, UNITED INTERNATIONAL UNIVERSITY OF ENGINEERING AND TECHNOLOGY(WWW.UIU.AC.BD), 2009-2017

PROJECT TITLE: AN INTELLIGENT BUSINESS EXPERT

United International University is a private university located in Dhaka, Bangladesh. The government of Bangladesh approved the establishment of United International University in 2003. Teachers are highly skilled to help students efficiency and train students how to apply those skills in real their real life.

Other certifications

CREATIVE 

LEADERSHIP 

TEAMWORK 

CONFIDENT 

Some projects and Hardware Implementations

- Ebook (ASP .NET MVC)
- Ecommerce (Laravel + Reactjs + mysql)
- ERP System (Web Based)
- Data Gathering system from web by scribing technique using custom system by python
- Arduino & Raspberry Pi automation for managing power schedule and production
- planning with proper web based interfacing
- Custom pentesting tools for testing web based application, android/IOS, platform
- Data analysis tools: Pandas, numpy, scipy, SET, msf console(pentester)
- Automatic tracking system for android device using socket programming
- DMP – Criminal Data storage policy and Finding the Major Zone Of Crime using Density base Clustering
- Kids' Education board (Hathe Khori) using Character Recognition AI system Implemented For Windows Phone, iPad, Android Phone, Windows as Prototype
- Onion Hosted Cloud Personal IRC Network For Bangladesh Army on Raspberry pi Kali Linux Platform
